(D) Depth	601mm

Winner of 2009 Exclte Award
from Custom Retailer Magazine

2010 International CES Innovations
Design & Engineering Award Honoree

OBJECTIVE

The Couch Potato (CP8) is a self-powered subwoofer that allows the user to deliver massive fast bass into their seating position.

With an integral high-power 300 Watts MAX amplifier, the CP8 subwoofer provides for an RCA input, high level input with a crossed high level output. CP8 high output level is designed to match typical satellite speaker systems and to enhance overall sound quality and performance for your system.

Its slim enclosure design and placement flexibility allow you to place the CP8 under the sofa, behind it, under the bed or any other tight spaces.
