

AV Balun with Power Lead

FEATURES

- Stereo audio and video balun
- Allows the transmission of composite baseband video signals and stereo audio signals up to a distance of 300m using 4 pair twisted cable
- Allows a 12-volt supply to be injected into the twisted pair cable to supply camera power from a remote location

RL-BV100	
Equipment to connect	Cameras audio / visual
Connection	Inputs: 3 x RCA Outputs: 2 x Audio, 1 x Video
Bandwidth	3.5mm power input / output
Maximum input	1.1V P-P
Return loss	>15dB to 1,000 MHz
Common mode rejection	>40dB @ 1,000 MHz
Maximum distance colour	To 300m Cat3 or 550m Cat5e to 8 MHz
Maximum distance RF	To 100m Cat3 or 150m Cat5e to 1,000 MHz
Maximum distance B & W	To 400m Cat3 or 700m Cat5e to 8 MHz
