

ARC-1276x2 Component Video Stereo Extender

The Component Video&Stereo Audio CAT5 Extender Box is the next step in the evolution of home theater and residential video components. This module will provide crystal clear pictures over long distances utilizing economical Category 5e cable.

SPECIFICATIONS:

Interface:

Video: 3 * RCA (Y/Pb/Pr) female connectors

Audio: 2 * RCA female connectors

UTP: RJ-45 connector

Impedance:

Video: 75 ohm unbalanced

Audio: 600 ohm unbalanced

UTP: 100 ohm balanced

Bandwidth:

Video: DC~60 MHz

Distance: Over Category 5e/6 UTP cable:

- 480p video, up to 100 meters (total length, device-to-device)
- 720p video, up to 75 meters (total length, device-to-device)
- 1080i video, up to 50 meters (total length, device-to-device)
